HOW BLENDED LTV IS BUILT

Total lifetime revenue of **£1,346,827** (£1,329,147 GBP + €20,800 converted at €1 = £0.85) divided by **156** billed Xero contacts. Consolidating related contacts — the six Kana Health Group sites, monthly and ad-hoc splits — gives 143 client entities and a blended LTV of **£9,418**.

CONCENTRATION

The top fifteen client entities account for **≈45%** of all lifetime revenue. The median client is worth £4,814 — well under the blended figure. Revenue lives at the top of the table.

The blended number says £8,634. The median says £4,814. The gap between those two numbers is the story: a small group of clients carries the book.

Total outstanding across all clients: ~£9.7k — the book collects well.

Vendo.

THE TOP FIFTEEN

Who carries *the book*.

Related Xero contacts merged into single client entities — Kana Health Group sites combined, monthly and ad-hoc contacts combined.

#	CLIENT	LTV (NET)	STATUS
01	MR Mouldings	£117,850	Active · ~£10.7k/mo since Aug 2025

What the table *says.*

01 — THE DENTAL COHORT IS MID-TABLE AND CLIMBING

Most clients onboarded since August 2025 sit in the £10–27k range and are still active — their LTVs are unfinished numbers. The current book is young.

02 — TENURE BEATS TICKET SIZE

Vulcan Cladding, Kane Construction and London Property Preservation bill modest monthly amounts but have 3.5+ years of tenure — all three sit comfortably in the top twelve.

03 — THE BOOK COLLECTS WELL

Total outstanding across all 156 clients is roughly £9.7k. The largest single balance is Access Platform Sales at £4,050.

04 — BLENDED VS MEDIAN IS THE GAP TO WATCH

Blended LTV £8,634 · median £4,814. Every new client retained past month twelve pulls the median towards the blend.

METHOD

Source: Xero sales invoices (ACCREC), statuses PAID and AUTHORISED, net of VAT. Voided, deleted and draft invoices excluded. Period: 31 August 2022 to 10 June 2026, synced 10 June 2026. LTV = sum of invoice subtotals per Xero contact. Blended LTV = total lifetime revenue ÷ number of billed contacts. EUR converted at €1 = £0.85 for blended figures; EUR rows shown in € in the league table.

Generated from the Vendo OS·outputs/analyses/2026-06-10-client-ltv.md holds the working data.
